SUBJECT: Audit of Comprehensive Environmental Response, Compensation and Liability Act (CERCLIS) Sites Deferred to Resource Conservation and Recovery Act (RCRA)

During a recent audit by the Office of Inspector General of CERCLIS sites which were listed as Deferred to RCRA, the following 11 Minnesota sites were identified as possibly needing additional assessment under Superfund or as deferred to RCRA. The first 10 sites are from the list of "Handlers not Subject to Corrective Action", and the last site is in the RCRA Corrective Action universe but not prioritized for action. These 11 sites are as follows:

- | | |
|-------------------------------|--------------|
| 1. Advanced Solvent Recycling | MND980795555 |
| 2. Aptus Inc. | MND980791321 |

| 4. International Bildrite | MND982619009 |

| 11. Conoco Inc Wrenshall Ref. | MND006161129 |

All of these sites are currently in "Archive" status on CERCLIS. It is the Minnesota Pollution Control Agency's (MPCA) recommendation that all 11 sites be designated under the No Further Remedial Action Planned (NFRAP) category and on the "Archive" portion of the CERCLIS list.

The following is the current status for each site and rational for NFRAP designation.

1. Advanced Solvent Recycling (aka Metro Tire and Retreading) - Site Closed under MPCA RCRA corrective action
